

MY EXPERIENCE WITH IMUN

Hello everybody I'm Francesca and this is the first year that I attended IMUN, and it was simply an incredible experience!

But do you know what exactly IMUN is?

IMUN (Italian Model United Nations) is the largest simulation in Italy, the only organized diplomatic process to be carried out in cooperation with IMUNA, the International Model United Nations Association, which for 40 years has been organizing models in the United States of America. IMUN takes 5 days, including the opening ceremony, the closing ceremony and the 3 days of Commission. During these 3 days of Commission you have to represent your country as a delegate and with the other delegates talk about the different problems of all the countries. Finally, you have to find, all together, the probable resolutions to the topic of your Commission.

Now you'll probably think that it is really difficult, but it isn't believe me!

This experience opens your mind and puts you in a different situation, where you don't know anyone and you are speaking in a different language. In addition, this lets you discover a lot of things that you have never heard before, and this is amazing!

But what about my experience...? I really enjoyed it, because it really changed me and it improved my English a lot!

The first day I didn't know anyone, I was really scared, but that's why I got into the game much more than expected. I studied a lot to represent my country as a perfect delegate, and all the 3 days I talked a lot about the most important problems and the most important projects that my country had! I discovered a lot of interesting things, not only about my country but about all the others too, and I really liked working together with the other delegates to find some solutions!

At the end of the 3 days of Commission I was really sad, I didn't want to finish that experience with all my new friends, because IMUN is for meeting new people too! I'm sure that I will do IMUN in the next years too, because it was so special for me, and I recommend it to everyone that hasn't done it yet! So, if you don't know what IMUN is yet, please go and get informed, because believe me you won't find an experience like this anywhere.
